

# all stainless steel construction

## MGS18 - DS 63

**1.18**

Compliance to requirement of  
PED 97/23/EC

These instruments are designed for use in food, beverage, pharmaceutical, cryogenic, chemical and petrochemical processing industries, and in conventional and nuclear power plants, to measure gaseous or liquid media which do not have high viscosity or do not crystallize. They are built to resist the most severe operating conditions created by the ambient environment and the process medium. For use on power units, pumps, hydro-cleaning machines, presses, engine compressors, turbines, diesel engines, chemical, petrochemical and refrigerating plants and on machines and equipment where pulsating pressures or mechanical vibrations are apparent, the liquid-filled version is recommended.

### Functional and constructive characteristics.

#### 1.18.1 Standard

**Accuracy class:** 1,6 as per EN 837-1.

**Ambient temperature:** -25...+65 °C.

**Process temperature:** max +100 °C.

**Working pressure:** max 75% of the full scale value .

**Over pressure limit:** (referred to the full scale value):

25% for pressure ranges ≤ 100 bar;

15% for pressure ranges > 100 bar.

**Protection:** IP 55 as per IEC 529.

**Socket material:** AISI 316 st.st.

**Elastic element:** seamless tube

AISI 316L st.st. "C" shaped for pressure ranges ≤ 40 bar;

AISI 316L st.st. spiral for pressure ranges 60...1000 bar.

**Welding:** AISI 316 TIG.

**Case:** AISI 304 st.st.

**Ring:** AISI 304 st.st., bayonet lock.

**Window:** Plexiglas.

**Movement:** stainless steel.

**Dial:** ABS, white with black markings.

**Special dials:** ranges different from standard, or custom artwork, available on request.

**Pointer:** aluminium, micrometric adjustable.

**Gasket:** silicon rubber.

**Blow out vent:** EPDM.

#### 1.18.2 Fillable

**Protection:** IP 67 as per IEC 529.

**Ring:** AISI 304 st.st. polished, crimped.

**Pointer:** aluminium, black.

**Note:** version suitable for glycerine filling; other filling fluids available on request (see OPTIONS table).

**Other features:** as type 1.18.1 (as type 1.18.3 when filled).

#### 1.18.3 Liquid filled

**Ambient temperature:** max +65 °C, (see DAMPING LIQUIDS table for further information)

**Process temperature:** max +65 °C.

**Protection:** IP 67 as per IEC 529.

**Ring:** AISI 304 st.st. polished, crimped.

**Pointer:** aluminium, black.

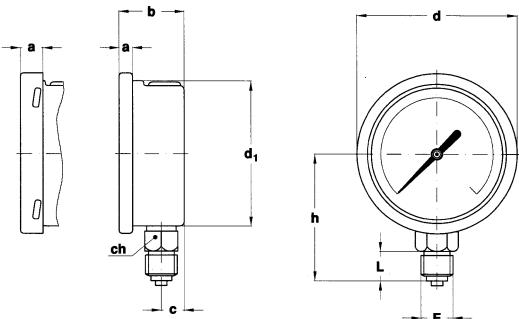

**Damping liquids:** glycerine 98% (optional silicon oil, Fluorolube).

**Other features:** as type 1.18.1.

**all stainless steel construction**

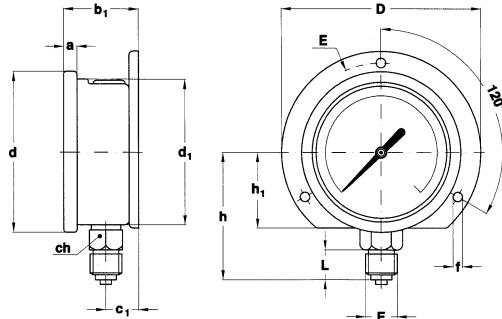

**MGS18 - DS 63**

### TYPE, DIMENSIONS AND WEIGHTS

**TYPE A**

stem mounting;  
lower connection.

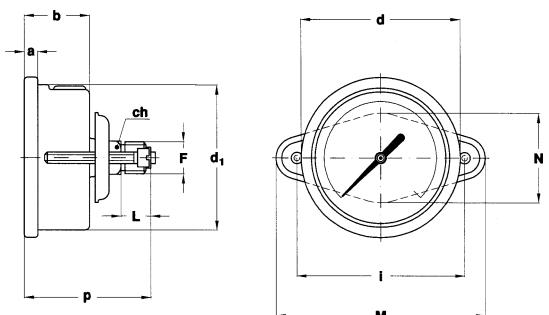

**TYPE C**

surface mounting, back flange;  
lower connection.

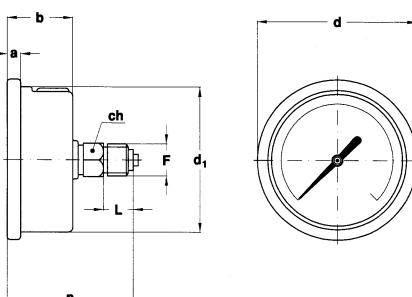

| MODEL             | DS | TYPE | a   | b  | b <sub>1</sub> | c  | c <sub>1</sub> | d  | d <sub>1</sub> | f   | h <sub>1</sub> | D  | E  | Weight (kg) |

## DAMPING LIQUIDS

| Damping liquids | Limit ambient temperature    |
|-----------------|------------------------------|
| Glycerine 98%   | +15...+65 °C (+60...+150 °F) |
| Silicon oil     | -45...+65 °C (-50...+150 °F) |
| "Fluorolube"    | -60...+65 °C (-76...+150 °F) |

Glycerine or silicone should not be used with highly oxidizing agents such as oxygen, chlorine, nitric acid or hydrogen peroxide, because of danger of spontaneous chemical reaction, inflammability or explosion. The use of fluorinates fluid is recommended in these cases.

## RANGES

### PRESSURE

**ACCESSORIES****Diaphragm seals:** a complete range of diaphragm seals are available with a choice of materials of construction. Specifically for corrosive and difficult process fluids plus hygienic applications. For further details refer to relevant data sheets.**Adjustable over-load protector:** this is useful for installations which may generate high overpressures; the pressure gauges is automatically excluded at the pre-set pressure and cut in again automatically when the operating pressure returns to normal. For further details refer to relevant data sheet.**Valves:** for construction details and for use limits refer to relevant data sheet.**Pigtail and siphons:** recommended with temperatures of 65° C (150° F) or over. For further details refer to relevant data sheet.**Pressure snubbers:** for further details refer to relevant data sheet.
