

pressure gauges "solid-front"

turret case DS 125

MGS30 ~~EXTRA~~

1.30.X

- **thermoplastic case**
- **AISI 316L wetted parts**
- **dampened movement**
- **vibrations proof**

These instruments are built in accordance with safety specifications ANSI B40.1, UNI-EN 837-2. The safety construction consists of a stainless steel "solid-front" safety cell placed behind the scale, which welding to socket gives to instrument an exceptional strength. Whenever, due to leaks, an internal pressure is created or the elastic element is broken the safety cell protects the front and sides, meanwhile the blow out back is released from the case. They are designed for use in food, beverage, pharmaceutical, petrochemical, conventional and nuclear power plants. The dampened movement make them particularly suitable in presence of high vibrations and pulsating pressure.

Functional and constructive characteristics

1.30.X.A - stainless steel wetted parts

Accuracy: Grade 2A as per ASME B40.1 ($\pm 0.5\%$ of span).
Ambient temperature: -25...+65 °C.
Process temperature: -30...+150 °C max.
Working pressure: max 75% of full scale value.
Overpressure: (temporary): 30% of full scale value.
Protection degree: IP 65 as per IEC 529.
Socket material: AISI 316 L.
Elastic element: AISI 316L seamless tube.
Welding: AISI 316 T.I.G.
Case and blow out disk: polyammide, fiberglass reinforced.
Ring: polypropylene, fiberglass reinforced.
Safety cell: AISI 304 st.st.
Window: Plexiglas.
Movement: stainless steel, dampened.
Dial: aluminium, white with black markings.
Pointer: aluminium, micrometric adjustable.
Gaskets: EPDM.

01.30.X.D - stainless steel wetted parts

Case: phenolic resin.
Ring and blow out disk: polypropylene, fiberglass reinforced.
Separating wall: AISI 304 st.st.
Safety cell: not available.
Other features: as type 1.30.X.A

1.30.X + option E07 : Monel 400 wetted parts

Accuracy: Grade 1A as per ANSI B40.1 ($\pm 1.0\%$ of span).
Socket material: MONEL 400.
Elastic element: MONEL 400 seamless tube.
Welding: TIG.
Ranges: the same of standard version from 4 to 600 bar (0/5000 psi not available).
Leak test: leakage rate $<1\times10^{-7}$ mbar $\times 1 \text{ s}^{-1}$ (helium test by mass spectrometer).
Other features: as 1.30.X.

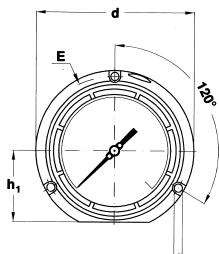

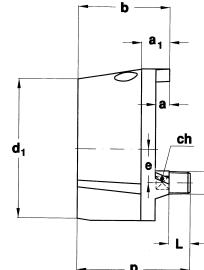

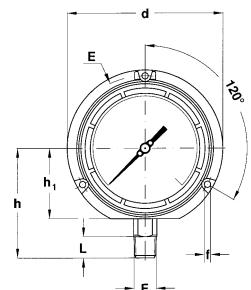

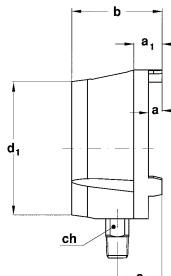

OPTIONS

DESCRIPTION	Code
S6 version - Monel 400 wetted parts	E07
Panel mounting Kit	F11
Oxygen service	P02
Tropicalization	T01
AISI 316 st.st. label	T25
Safety glass window	T32
Restrictor AISI 304 ø 0,7 mm	V11
